INCIDENT REPORT: FIRE AT EATING HOUSE

Item	Detail
Incident ref	PLG-INC-2026-011
Date / time	18 May 2026, approx. 06:40
Premises	Sin Hock Eating House, Blk 118 Cendana Road #01-01 Singapura 470118 (U-CD118-01-01)
Tenancy	TA-2024-00224 (rent S$11,800.00/month)
Reported by	Marcus Lim, Estate Manager (East)
CRM case / i-EMS ticket	FB-2026-00456 / IEMS-2605-0038
CDA incident no.	CDA/FI/2026/05/0447 (fictional)

1. Summary

A fire broke out in the kitchen exhaust hood of the drinks stall at the eating house at about 06:40. The Civil Defence Authority (CDA) put it out by 07:05. No injuries. Smoke damaged the ceiling boards and exhaust ducting. The eating house was closed by order of the Estate Manager until a structural check and CDA clearance were completed.

2. Timeline

Time	Event
06:40	Fire noticed by stall assistant; fire extinguisher used, unsuccessfully
06:44	CDA alerted by tenant
06:52	CDA on scene; residents of levels 2-4 evacuated as a precaution
07:05	Fire extinguished
07:30	Marcus Lim on site; premises cordoned
09:15	i-EMS ticket IEMS-2605-0038 raised (Critical) by Ahmad Faizal Ismail
19 May 10:00	Kemas Building Works structural inspection: no structural damage; ceiling and duct replacement needed
05 Jun	Repairs completed; CDA clearance obtained
09 Jun	Eating house reopened

3. Cause

CDA's preliminary assessment: grease build-up in the exhaust duct of the drinks stall caught fire. The duct cleaning record showed the last cleaning was in November 2025, more than 6 months earlier. Quarterly cleaning is required (Management Meeting 4/2026, AOB).

4. Impact

- Closure: 22 days (18 May - 8 June 2026).
- Estimated repair cost: S$18,400 (ceiling, ducting, rewiring), to be recovered from tenant as tenant-caused.
- 12 stall-holders affected; 3 resident feedback cases on smoke smell.

5. Recommendations

1. No rent rebate: unlike precedent PC-2025-019 (where the fire was caused by an HEB electrical fault), this fire was caused by the tenant's failure to maintain the duct.
2. Issue a warning and require quarterly duct-cleaning certificates for the remaining tenancy.
3. Recover repair costs from the tenant; the tenant may claim on their own insurance.
4. Estate Managers to audit duct-cleaning records of all eating houses by 31 July 2026.
