INTERNAL AUDIT REPORT: TENANCY MANAGEMENT (PLG)

Item	Detail
Report no.	IA/2026/07
Date	28 July 2026
Audit period	1 October 2025 - 30 June 2026
Auditee	Properties & Land Group - Tenancy Management, Finance & Arrears, Estate Management
Distribution	Tan Wei Ling; Rajesh Pillai; Nurul Huda Rahman; Priya Menon; Audit Committee
Overall rating	Needs Improvement

1. Executive Summary

Internal Audit reviewed the design and operating effectiveness of controls over tenancy renewals, rent master data, usage inspections, arrears recovery and defect routing. Six findings were raised: two High, two Medium and two Low. Management has agreed to the action plans. The most significant issues are rent master data integrity (IA-02) and the arrears SOP being out of step with policy (IA-04).

Ref	Finding	Rating
IA-01	Late renewal applications accepted without documented justification	Medium
IA-02	Rent master data does not match the tenancy agreement	High
IA-03	Inspection follow-ups not completed on time	Medium
IA-04	Arrears SOP not aligned with revised policy	High
IA-05	Tenant-facing FAQ shows the wrong security deposit amount	Low
IA-06	Misrouted i-EMS tickets	Low

2. Scope and Approach

- Sample testing of 60 tenancy agreements against PLG Records.
- Data analytics over all inspections, i-EMS tickets and renewal applications in the audit period.
- Walk-through of the arrears recovery process with F&A officers.
- Review of policies, SOPs and tenant-facing publications for consistency.

3. Detailed Findings

IA-01 Late renewal applications accepted without documented justification

Item	Detail
Rating	Medium
Observation	5 of 134 renewal applications (4%) in the review period were received less than 6 months before expiry. For 7 of the 15 sampled late cases, the file did not record why the late application was accepted under POL-002 cl. 4.4.
Recommendation	Record the justification and approving officer for each late renewal in PLG Records.
Management owner	Nurul Huda Rahman
Target date	31 Oct 2026

Management response: Agreed. A mandatory 'late justification' field will be added in PLG Records.

IA-02 Rent master data does not match the tenancy agreement

Item	Detail
Rating	High
Observation	In a sample of 60 tenancy agreements, 1 tenancy (TA-2024-00451, Heng Ann Confectionery, U-ST512-01-05) is recorded in PLG Records at S$4,850.00/month, but the signed agreement states S$4,580.00/month. The tenant has been over-billed S$270 a month (before GST) since 1 Jul 2024.
Recommendation	Correct the record, refund the over-billed amount and introduce maker-checker for rent data entry.
Management owner	Priya Menon
Target date	30 Sep 2026

Management response: Agreed. Record corrected on 5 Aug 2026; refund being processed. Maker-checker to go live in Q4.

IA-03 Inspection follow-ups not completed on time

Item	Detail
Rating	Medium
Observation	356 of 506 inspection follow-ups due by 30 Jun 2026 (70%) were closed late or remained open, including a major breach (unauthorised subletting) in Rimba Heights that was still open at the time of audit.
Recommendation	Estate Managers to review overdue follow-ups weekly; prioritise major breaches.
Management owner	Marcus Lim / Benjamin Ho
Target date	31 Aug 2026

Management response: Agreed. Weekly overdue list implemented from August.

IA-04 Arrears SOP not aligned with revised policy

Item	Detail
Rating	High
Observation	PLG-SOP-014 v1.2 still tells officers to refer cases for a Letter of Demand at day 45. PLG-POL-003 v2.0 (effective 1 Apr 2026) requires a hardship call first and the LOD at day 60. The SOP update due by 31 May 2026 (Management Meeting 4/2026, action 1) has not been done. Two LODs in the sample were issued at about day 46, before any hardship call.
Recommendation	Update SOP-014 immediately; brief F&A officers; check LODs issued since 1 Apr 2026.
Management owner	Priya Menon
Target date	15 Aug 2026

Management response: Agreed. SOP v1.3 is being drafted. Interim email instruction issued to F&A officers.

IA-05 Tenant-facing FAQ shows the wrong security deposit amount

Item	Detail
Rating	Low
Observation	The Tenant FAQ (2025 edition) on the HEB website says the security deposit is 2 months' rent. PLG-POL-002 cl. 6.1 sets it at 3 months. Two copies of the FAQ are on SharePoint with slightly different content.
Recommendation	Withdraw the FAQ, correct it and keep a single controlled copy.
Management owner	Nurul Huda Rahman
Target date	30 Sep 2026

Management response: Agreed. FAQ withdrawn from website on 1 Aug 2026; revision in progress.

IA-06 Misrouted i-EMS tickets

Item	Detail
Rating	Low
Observation	8 of 425 i-EMS tickets (1.9%) raised up to 30 Jun 2026 were rejected by contractors as misrouted. Overall SLA attainment for closed tickets was 71.2%.
Recommendation	Refresher on the SOP-020 taxonomy; consider decision support for classification.
Management owner	Ahmad Faizal Ismail
Target date	31 Dec 2026

Management response: Agreed. Training scheduled; AI classification assistant to be explored in the super-librarian POC.

4. Rating Definitions

Rating	Meaning
High	Significant control weakness; immediate action required
Medium	Control weakness needing timely action
Low	Improvement opportunity

Appendix A - Data Analytics Summary

Test	Population	Exceptions
Renewals received < 6 months before expiry	134	5
Inspection follow-ups closed late / open	506	356
i-EMS tickets misrouted	425	8
Tenancy agreements vs PLG Records rent	60	1

Appendix B - Late Renewal Applications (IA-01)

Renewal applications received less than 182 days before tenancy expiry. 'Justification recorded' reflects the file review on the sampled cases.

Appendix E - Sample Selection Method

The 60 tenancy agreements in IA-02 were selected by stratified random sampling across the six towns (10 per town), weighted towards tenancies that started in 2024-2025 when PLG Records data entry was decentralised to the estate offices. Each agreement was compared field by field (rent, deposit, term, approved trade, unit) against PLG Records. Data analytics tests ran over the full populations extracted from PLG Records, CRM and i-EMS on 7 July 2026.
